

Seems To Me S Furster

Seems to me I've known your face

Seems one beheld before

Must've been some other place

Must've been some other shore

Seems to me I've known your eyes

They seem like ones that used to care

Must've been 'neath difference skies

Must've been I don't know where

I don't know where

So who are you

If you're not her

And who am I

If I'm not sure

I've known your face

And your eyes, in dreams

I've known your love

Or so it seems

So it seems

Seems to me I've seen your smile

Seems like one I left behind

Must've been some long lost while

Must've been like one of a kind

Seems to me I've held your hand

Seems like one I found so fair

Must've been some other land

Must've been I don't know where

I don't know where

I've known your face

And your eyes, in dreams

I've known your love

Or so it seems

So who are you

If you're not her

And who am I

If I'm not sure

I've known your face

Your eyes, in dreams

I've known your love

Or so it seems

So it seems
