#### One verse inst

GCTake the ride of your lifeGCLike the roll of the diceGCTake the ride of your lifeABut don't get off or you'llDNever really make it.

And if you find you're in doubt What it's really about You think you don't know the route If you don't know how Just go ahead and fake it.

### Ch

Oh G Cstart the show G DHere we go G CIt starts off slow D GThen gets faster faster, you know

And when you're takin' the ride Choose a path that is wide Cause you'll have someone beside Hey the way is lonely And it's better if you share it

The world is shining on you It shines on everything new No matter what you do It'll be all right if only You will dare it Ch Oh G C start the show G D Here we go G C It starts off slow D G Then gets faster faster, you know

### Inst Bridge;

E-C, E-C, A D-A, E-C, G

Well the ride isn't long There's no track that is wrong You will find that you're strong You wake in the morning And you start it all up again

And at the end it's ok We'll have to walk away Might ride again some day We don't know how and We'll never know when
