

Cool in the Wind S.Furster 2012

I shouldn't care
And I shouldn't dare
But I wanna share, it's like a prayer
and it's

Cool in the wind, brother
Cool in the wind, sister
Cool in the wind, brother now

And I know
The sky isn't grey; it's blue as the bay
It's just like they say, it's only one day
So let's find a way, so let's find a way

I wanna know
What we knew long ago
So we could all go, and maybe we'd grow
where it's

Cool in the wind, brother
Cool in the wind, sister
Cool in the wind, brother now

And I know
It isn't far to catch a star
To put in a jar, no it isn't far.
It's right where we are. It's right where we are.

We gotta find the wind
The wind is truth
By God the truth is love, my friend

We gotta be the wind
Win or Lose
We're gonna know it in the end

Maybe I'm wrong,
It's just a song.
If the sun is too strong it won't be long, we'll be

Cool in the wind, brother
Cool in the wind, sister
Cool in the wind, brother now

And I know
We'll laugh and run, 'cause it's warm in the sun
It's just for fun and then the song is done.
Yeah, the song is done Yeah, the song is done
